

Duet™ Banner Stand

Design and Value In Perfect Harmony

exhibiting solutions

Double-Sided Graphic Duet™ Banner Stand

Twice the message of other banner stands! Duet™ gives you big graphics on both sides and a stylish, streamlined base. Both 34- and 48-inch units are easy to set up and built with Skyline quality.

Single Panel, Printed Both Sides

Duet gives you graphics on both sides of a single panel. That means less weight, quicker set up and graphics that are easier to change when it's time to update your message.

Kiosks or Inline Displays

Get two-sided messaging in open areas like retail environments and island exhibits. Or as an inline display, you can have different messages on sides A & B. While your target message is visible to your audience, your alternate message is hidden on the opposite side.

Quick and Easy Graphic Exchange System!

Simply roll down the existing graphic, extend the leader from the base and slide the graphic off. Slide the new graphic onto the leader and roll up.

1 Halogen Lighting – 50 Watt
 Fixture attaches to the top of the panel and highlights your graphic. Available in single or double lights.

2 Graphic Support Poles
 Poles support graphic panel and are designed for easy installation.

3 Two-Sided Graphic Panels
 Vibrant and durable Skyline graphics. Panels are printed UV process on opaque vinyl to eliminate image bleed-through.

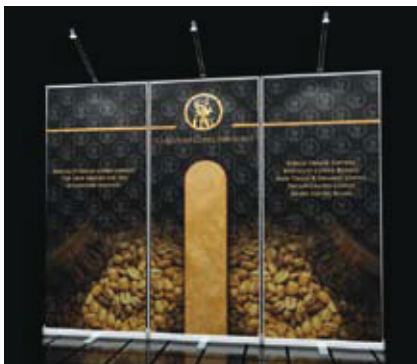

4 Sleek, Retractable Base
 Graphic panel retracts into the base during storage. The base also contains a **Graphic Exchange System** which allows you to easily change your graphics on-site.

5 Support Feet
 Support feet provide stability and simply swivel open during use, then back again for streamlined packing.

Duet™ Banner Stand Specifications

Duet™ Banner Stand is available in 34- and 48-inch widths.

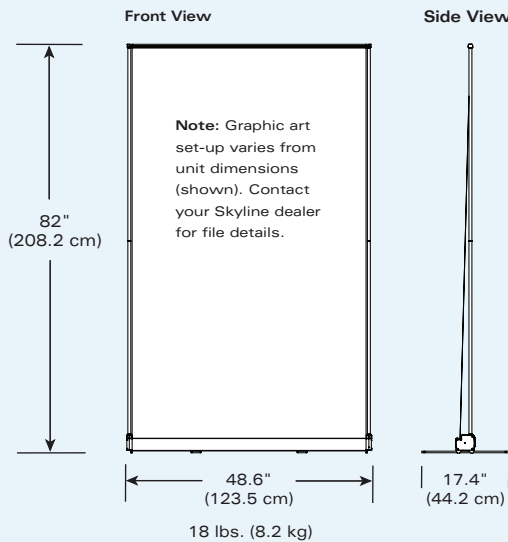

Three adjoining Duet™ units create a powerful, yet convenient, trade show display.

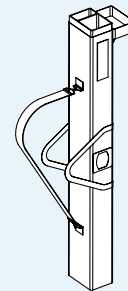

With graphics on both sides, Duet kiosks are great for trade shows, events, retail areas, lobbies and more.
